

Please do not let the CBA impose the exemption on Indiana consumers. We need and want this privacy to be as it is. Let the consumers decide for themselves who they want calling. We have the right to a certain amount of privacy and the Telephone Privacy Act is providing us that much. Our banks already have all our personal information. We can let them know if and when we wish them to call. Please stop this petition and do not weaken Indiana's Telephone Privacy. Thank you.
Sincerely,
Crystal G. Allison
